

Financial Information Needed — Jeffrey Bernecky

Jeffrey — this is for the motion we're preparing about your supervision conditions, specifically the part asking the Court to put a real limit on the monitoring/treatment/testing fees instead of leaving the amount open-ended. To make that argument work, we need your actual numbers, not estimates. Please fill in exact figures wherever you have them. Where you don't know something yet (like your benefits details), just type "TBD" and we'll update it once you know.

If you can, have these on hand when you fill this out: your most recent pay stub (once you have one), your bank statement, and your lease.
